

Dear MBE/WBE Vendor:

There exist some great opportunities with a prime construction company seeking M/WBE participation on the Martinsville Water Facility Project. This is pretty good size job and should be beneficial in terms of travel and profit. The needs are listed below and contact information. Please, when contacting Thieneman Construction by way of email cc this office at mybid@indygov.org so we can keep track of correspondence with Thieneman. Good luck and keep me informed of any relationships formed and contracts let.
